

SUBJECT: Premier Member Highlight – Jen Stevens

Jan Stevens

Many of you have heard Jen's name throughout WSBA since she is the creator of the Premier Member online directory as well as editor of the Electronic Newsletter. Jen has also offered her services to the Advisory Board while being involved in other volunteer groups. Jen can be reached at jen@zerodebtexpress.com and don't forget to visit her site at www.zerodebtexpress.com

Jen, tell us a little about your business.

United First Financial (UFirst) helps enable people to pay off their debts (including their bank-contracted 30 or 15 year mortgages) in 1/2 to 1/3 the time **without** having to refinance, with **no** change to their mortgage payment and little to **no** change in their lifestyle.

How long have you been with this company, or in this business?

Almost 2 years

What does your company specialize in?

Our award-winning and user-friendly system leverages money, cancels debt and creates wealth by cancelling interest on any loans that carry interest charges -- including multiple properties.

What sets your company apart from your competition?

United First Financial has little or no competition because of the fact there is no other software exactly like their Money Merge Account system™. In fact, United First Financial won the 2008 Entrepreneur of the Year Award in the Financial category from Ernst & Young just like Microsoft and Ebay did in their categories.

What products or services does your business provide that can help a WSBA member's business or personal growth?

United First Financial's Money Merge Account™ "proven software" can potentially cancel tens or even hundreds of thousands of dollars in interest on mortgages, credit cards, student loans, auto or boat loans, etc. It's like a GPS that can help them make

better financial decisions for their business and personal life making it possible for them to instantly view the impact of every single financial decision they make.

If a WSBA member were to choose to do business with you, what can they be assured of?

Our brief questionnaire will let them know the exact month and year they can be totally "out of debt"... guaranteed! This system is not for everyone. My job is to prove it would make sense for the individual first -- before doing business with them. United First Financial's Money Merge Account™ system helps individuals with perfect to not so perfect credit and possibly those in a bankruptcy situation
